Store in a dry, cool and frost-free place.

PRODUCT DESCRIPTION

Two-part epoxy putty for permanent repairs and restorations.

FIELD OF APPLICATION

For repairing and restoring objects exposed to humidity or water. Ideal for maritime applications or emergency repairs under water.

PROPERTIES

- Fast
- Paintable
- Easy to use
- Does not shrink
- For use indoors and outdoors
- Adheres to moist surfaces

PREPARATION

Working conditions: Use only at temperatures between +15°C to +25°C.

Personal safety: Preferably wear gloves during use. After use, thoroughly wash hands with water and soap.

Preliminary surface treatment: Surface should be roughened, and then cleaned and degreased.

Tools: Use a moist knife to slice off the needed amount of Epoxy Repair from the stick.

APPLICATION

Directions for use:

Use a moist knife to slice off the needed amount of Epoxy Repair from the stick (replace foil afterwards). Knead with fingers until putty has a uniform colour (beige). If kneading is difficult, warm up stick to room temperature. Use and shape within two minutes of mixing. Remove excess putty with a knife. Before
